

Mallacoota Inlet, with its shimmering lakes, rivers, pristine forests and turquoise seas lapping quiet beaches, captivates everyone who visits and urges them "to come back again".

Mallacoota is a true year-round destination, with Victoria's warmest winter temperatures and cooling breezes fresh from the ocean in summer.

Today we will feature the history of Mallacoota and its Bunker Museum.

The museum is located in a large underground concrete bunker from where anti-submarine operations were conducted throughout WW1
